DOB: January 22, 1990
Nationality: Tunisian

Professional experience

- Sep 2018–now **Postdoctoral researcher**, *Department of Decision Sciences, HEC Montréal, Canada.*
- 2014–2018 **Teaching assistant**, *Geneva School of Economics and Management, University of Geneva, Switzerland.*
- Sep 2013–Jan 2014 **Intern in statistical analysis of ozone data**, *Federal Office of Meteorology and Climatology MeteoSwiss, Switzerland.*

Education

- 2014–2018 **PhD in Statistics**, University of Geneva, Switzerland.
Statistical modelling and inference for covariate-dependent extremal dependence.
Supervised by prof. Valérie Chavez-Demoulin and prof. Elvezio Ronchetti.
- 2012–2014 **MSc in Mathematical engineering (Statistics and Financial Mathematics)**, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland.
Master thesis: Joint estimation for extremes of aggregated data (grade: 6/6)
Supervised by prof. Anthony C. Davison.
- 2009–2012 **BSc in Mathematics**, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland.
- 2008–2009 **Special Mathematics course (CMS, preparatory class)**, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland.
Ranked 2nd among 150 students.

Research grants

- Mar 2019–Sep 2020 **Swiss National Science Foundation, Early Postdoc.Mobility fellowship**
- Sep 2018–Mar 2019 **Statlab-INCASS-CRM postdoctoral fellowship**
- 2017 **Travel grant from Swiss Academy of Humanities and Social Sciences**
- 2016 **Travel grant from Société Académique de Genève**
- 2016 **Travel grant from Fondation Ernst et Lucie Schmidheiny**

Academic service

- 2015–2018 **Representative of the PhD candidates** at Conférence Universitaire de Suisse Occidentale (CUSO)
- 2017 **Co-organizer of the CUSO Young Researchers Conference**

Teaching experience

- Jan 2020–Apr 2020 Department of Decision Sciences, HEC Montréal, Canada
Lecturer: "Analyse et inférence statistique" for Master students in Management
- 2014–2018 Geneva School of Economics and Management, University of Geneva, Switzerland
- Multivariate analysis for Master students in Statistics and Economics
 - Sampling techniques for Master students in Statistics and Economics
 - Probability and statistics for Bachelor students in Economics and Management
 - Mathematics II for Bachelor students in Economics and Management
- 2009–2014 Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland
- Mathematical analysis for Bachelor students in Mechanical Engineering and Electrical Engineering
 - Mathematical analysis for students in Polymaths (Preparatory Course)
 - Mathematical analysis for students in CMS (Preparatory Course)

Publications

- 2020+ **L. Mhalla** and D.J. Dupuis. Tracking changes in spatiotemporal extreme precipitation patterns during hurricane season. In preparation.
- 2020+ D. Castro-Camilo, **L. Mhalla** and T. Opitz. Bayesian space-time gap filling for inference on extreme hot-spots: an application to Red Sea surface temperatures. Available at <http://arxiv.org/abs/2004.00386>
- 2020+ **L. Mhalla**, J. Hambuckers, and M. Lambert. Extremal Connectedness and Systemic Risk of Hedge Funds. Available at https://papers.ssrn.com/sol3/papers.cfm?abstract_id=3519295
- 2020 **L. Mhalla**, V. Chavez-Demoulin, and D.J. Dupuis. Causal mechanism of extreme river discharges in the upper Danube basin network. Journal of the Royal Statistical Society: Series C. Accepted and available at <https://arxiv.org/abs/1907.03555>.
- 2019 **L. Mhalla**, M. de Carvalho, and V. Chavez-Demoulin. Regression type models for extremal dependence. Scandinavian Journal of Statistics **46**, 1141–1167.
- 2019 **L. Mhalla**, T. Opitz, and V. Chavez-Demoulin. Exceedance-based nonlinear regression of tail dependence. Extremes **22**, 523–552.
- 2017 **L. Mhalla**, V. Chavez-Demoulin, and Philippe Naveau. Non-linear models for extremal dependence. Journal of Multivariate Analysis **159**, 49–66.

Refereeing for peer-reviewed journals

Annals of Applied Statistics
Scandinavian Journal of Statistics
Statistics and Computing

Oral presentations at conferences and seminars

- Mar 2020 **Invited talk**, Department of Decision Sciences, HEC Montréal (Montréal, Canada)

- Dec 2019 **Invited talk**, 12th International Conference on Computational and Methodological Statistics (ERCIM) (London, United Kingdom).
- Oct 2019 **Invited talk**, Fall Meeting of Statlab, University of Montréal (Montréal, Canada).
- July 2019 **Contributed talk**, 11th International Conference on Extreme Value Analysis (Zagreb, Croatia).
- June 2019 **Invited talk**, Operations Research Seminar, HEC Lausanne (Lausanne, Switzerland).
- June 2019 **Invited talk**, Workshop on Causality and Extremes, EPFL (Lausanne, Switzerland).
- Apr 2019 **Invited talk**, Département des mathématiques, Université de Sherbrooke (Québec, Canada).
- Feb 2019 **Invited talk**, Department of Mathematics and Statistics, Université Laval (Québec, Canada).
- Dec 2018 **Invited talk**, 11th International Conference on Computational and Methodological Statistics (ERCIM) (Pisa, Italy).
- Dec 2017 **Invited talk**, 10th International Conference on Computational and Methodological Statistics (ERCIM) (London, United Kingdom).
- Jun 2017 **Contributed talk**, 10th International Conference on Extreme Value Analysis (Delft, the Netherlands).
- Jun 2017 **Internal seminar**, Young Researchers Conference (Lausanne, Switzerland).
- Feb 2017 **Contributed talk**, Workshop on Risk Quantification and Extreme Values in Applications (Lausanne, Switzerland).
- Jun 2016 **Internal seminar**, Young Researchers Conference (Lausanne, Switzerland).
- Dec 2016 **Invited talk**, 9th International Conference on Computational and Methodological Statistics (ERCIM) (Sevilla, Spain).
- Apr 2016 **Invited talk**, Workshop on Uncertainty and Causality Assessment in Modeling Extreme and Rare Events (Boulder, USA).
